

# Good News! Dobson Gate

The Board approved the opening the North Dobson exit gate from 8 PM till 2 AM, daily.

*It is effective immediately!*

This means that you can use the SENTEX Directory to allow your guests into the community and they can exit the N Dobson Gate, after 8 PM, without a gate device. The barrier arm and swing gates will still operate.

Patrol will be periodically monitoring the gate to see that it is not being abused.
