

## You are in violation of the IronOaks Parking Rules:

- If the vehicle is parked in a designated fire lane
- If the vehicle is parked outside of a striped parking area in a parking lot. Parking areas marked for golf carts may be used by golf carts, motorcycles, or motor scooters. Golf carts, motorcycles and motor scooters are permitted in automobile parking spaces if parked along one edge of the space so that two may fit in one automobile parking space
- If the vehicle is parked within 15 feet on either side of a fire hydrant
- If the vehicle without a handicapped license or permit displayed is parked in a space designated as handicapped parking or parked in striped areas between handicapped parking spaces. In addition, a vehicle parked in a designated parking space with either a handicapped license or permit displayed must be parked there as a result of transporting a handicapped individual;
- If the vehicle is parked in an unsafe manner or location such that a traffic hazard is created.
